Bird Wool Sculpture

Prep: Precut the bird templates.

How: Use wool to wrap around the bird shapes and secure with tape on the back. Add feather for the tail and optional decals.

Pinecone Seed Feeder

How: Tie a piece of sting about 25 cms long and tie to the top of the pinecone using a double knot.

Place cone on a piece of kitchen roll, then use a glue spreader to cover each part of the pinecone in the margarine, poking it into the spaces.

Dip into a bowl of bird seed until covered and then take home on the kitchen roll.
